Subject: Photo Quality Meter - final draft for review

Importance: High

25087384_1.DOC

Dear Qian:

Enclosed please find the final draft of the Photo Quality Meter patent application (WORD attachment) for review. This draft contains substantial changes to the claims, some changes to the specification and incorporates your latest disclosure. I suggest you compare this document with the previous version to track all changes.

The set of informal drawings will follow tomorrow by e-mail as our HP scanner is down at the moment.

Please let me know if the application is ready for filing. Thank you.

Best Regards:
